Information technologies

### LANGUAGE SKILLS

**Czech** - Native

**English** - FCE - Cambridge English Level 1 Certificate in ESOL International (First)\*

### ABOUT ME

I'm punctual, reliable, and hard-working. Since high school, I've been exploring diverse programming technologies, further expanding my skills during university. Working with computer graphics, CAD, and 3D modeling is both enjoyable and a catalyst for my continuous learning. Embracing new technologies fuels my development, while outside of work, I enjoy snowboarding, mountain biking, and have a keen interest in cars, photography, and music.
